Future enhancements wishlist

KohaCon16 – future enhancements list

#1 Potamitis Vekris Law Firm Library (Greece) / 3.22 / OPAC

1. Additional opac themes -> "Material Design" theme according to Google's guidelines.
2. Plugin Addition to the home page for recently acquired books -> A global solution for previewing recent acquisitions based on the responsive jQuery plugin Owl Carousel 2 (<http://www.owlcarousel.owlgraphic.com/>)
3. Zebra indexing -> Adjust the "weight" of the search results according to MARC21 fields (from System Preferences).

KohaCon16 – future enhancements list

#2 AUTH (Greece) / Cataloging

Indicatively, the order in the catalogue (alphabetical order not always accurate and decimal number order in class numbers), time of response (slow)

KohaCon16 – future enhancements list

#3 Luleå University of Technology (Sweden) / 3.22

1. Create possibility to maintain different types of user fees in Koha user account that are treated separately. For example allow staff to add a article copy fee without locking the user out from borrowing more books.
2. Make it possible for staff to make a staff only notation/remark in koha intranet on each loan.

KohaCon16 – future enhancements list

#4 Université Bretagne Sud (SCD) (France) / 3.22 /Hold requests

Nous souhaiterions avoir la liste des réservations associées à de documents en prêt, et qu'elle soit accessible dans la liste des rapports de circulation (Circulation Reports) du module Circulation

KohaCon16 – future enhancements list

#5 Mediatheque intercommunale ouest provence (France) / 3.18 / System Administration

CREATION DE PREFERENCES SYSTEMES POUR LA GESTION DU BUDGET :

1. pour modifier les taux et/ ou seuils des alertes budgétaires en 1 opération pour tous les postes budgétaires
2. pour baisser ou augmenter un budget initial et tous les postes budgétaires rattachés en 1 seule opération en saisissant un %

KohaCon16 – future enhancements list

#6 BULAC (France) / 3.18 / Hold requests

We would be very interested if requests from stacks were enabled on the community version of the system. Our library (Bulac, Paris, France) has developed this fonctionnality but it is a proof of concept and non implementable on the community version of Koha.

KohaCon16 – future enhancements list

#7-9 Luleå University of Technology (Sweden) / 3.22

Patrons

Make a patrons' debt status visible on the Patron details view (cgi-bin/koha/members/moremember.pl)

Hold requests

Investigate if it can be created a more flexible configuration of rules combinations for allowing reserves depending on item, patron code and sub library

OPAC

It would be beneficial to add unique ID tags in all HTML elements in Koha Intranet/OPAC so that all aspects can be adjusted using jQuery.

KohaCon16 – future enhancements list

#10 University of the Arts London (UK) / 3.2

Tools

Interlibrary Loans widget to check catalogue for print items

Patrons

- Partial waiving of fines
- Status for claims returned that does not remove item from patron record
- Leavers Functionality

Notices

Additional Notices

KohaCon16 – future enhancements list

#11 American Academy in Rome (Italy) / 3.22 / Staff client

On the item tab in the staff client, include a tab to checkout selected items to a patron. The current choices are "Holdings; Descriptions; Acquisitions Details; Images." The request is to add a tab for "Checkout" where one would either search patrons or enter a patron ID and check the item out to the patron.

KohaCon16 – future enhancements list

#12-14 Royal Conservatory of Brussels Library (Belgium) / 3.22

Cataloging

- Restriction of indicators to valid values, and possibility to define default values, in the cataloging form.
- More plugins for input checks that can be connected to input fields: checking validity of ISBN, ISSN, ISMN, checking valid date or date range formats, also simple things like enforcing the use of only lowercase/uppercase letters/digits in a particular field, checking that the input matches a certain regex,

Command-line Utilities

Ability to give options to and use the script `link_bibs_to_authorities.pl` from the Tools admin section.

KohaCon16 – future enhancements list

#15 University Lyon 3 Library (France) / 3.18 / Patrons

In check-in screen, it will be very useful to have the number of documents left for a user at each return, because a lot of user ask "Have I still any document check-out" and you to go to the details user page to answer.

KohaCon16 – future enhancements list

#16 Daffodil International University Library (Bangladesh) / 3.22 / Patrons

- Permissions bundled in Patron categories administration : When we create patron category, we will be able to set up default permission for them.
- Circulation Policies in Patron Patron categories administration and Item type administration page. : So that we can set default circulation policy easily.

KohaCon16 – future enhancements list

#17 ... (Greece) / 3.22 / Patrons

- Please consider adding support for ISO-8859-7 encoding in Z39.50 searches (cataloguing/z3950_search.pl and elsewhere).

Info on the various Greek character sets can be found at <http://www.dmst.aueb.gr/dds/sw/greek/grconv/grconv.txt> and https://en.wikipedia.org/wiki/ISO/IEC_8859-7 and <http://www.ascii.ca/iso8859.7.htm>

ISO-8859-7 is/was also defined as ELOT_928, ISO-IR-126, ISO-IR-227, ECMA-118, CP28597 and is quite close to CP1253, WINDOWS-1253.

Tests may be performed against the UNIVERSITY OF ATHENS, GREECE target, at 195.134.90.84:210 with db name "UOA_Library" (in UNIMARC). An ISBN that is known to appear in search results is 960-236-152-2.

KohaCon16 – future enhancements list

#18-19 Library of Ministry of Finance (Czechia) / 3.22

OPAC

- Save records downloads gives the wrong results for item types: Serial and Article (analytical description) in RIS (and other) format

Cataloging

- Cataloging via Z39.50 server - only downloads and replaces the whole bib. record. There is no choice which fields remains and which to be replaced. The enhancement of records via 739.50 are impossible. It is a pity.
